

THE GLOBAL MOONSHOT

A message to the future ...

from the children of the Earth.

A GOLDEN EARTH

*With data to last
1000 years*

EarthCapsuleOne

A GOLDEN EARTH

*Radiation-shielding Golden
Earth Shell*

*1000 GB memory disks (1000 yr
lifespan)*

*Etched Titanium Strips
(100,000 yr lifespan)*

EarthCapsuleOne

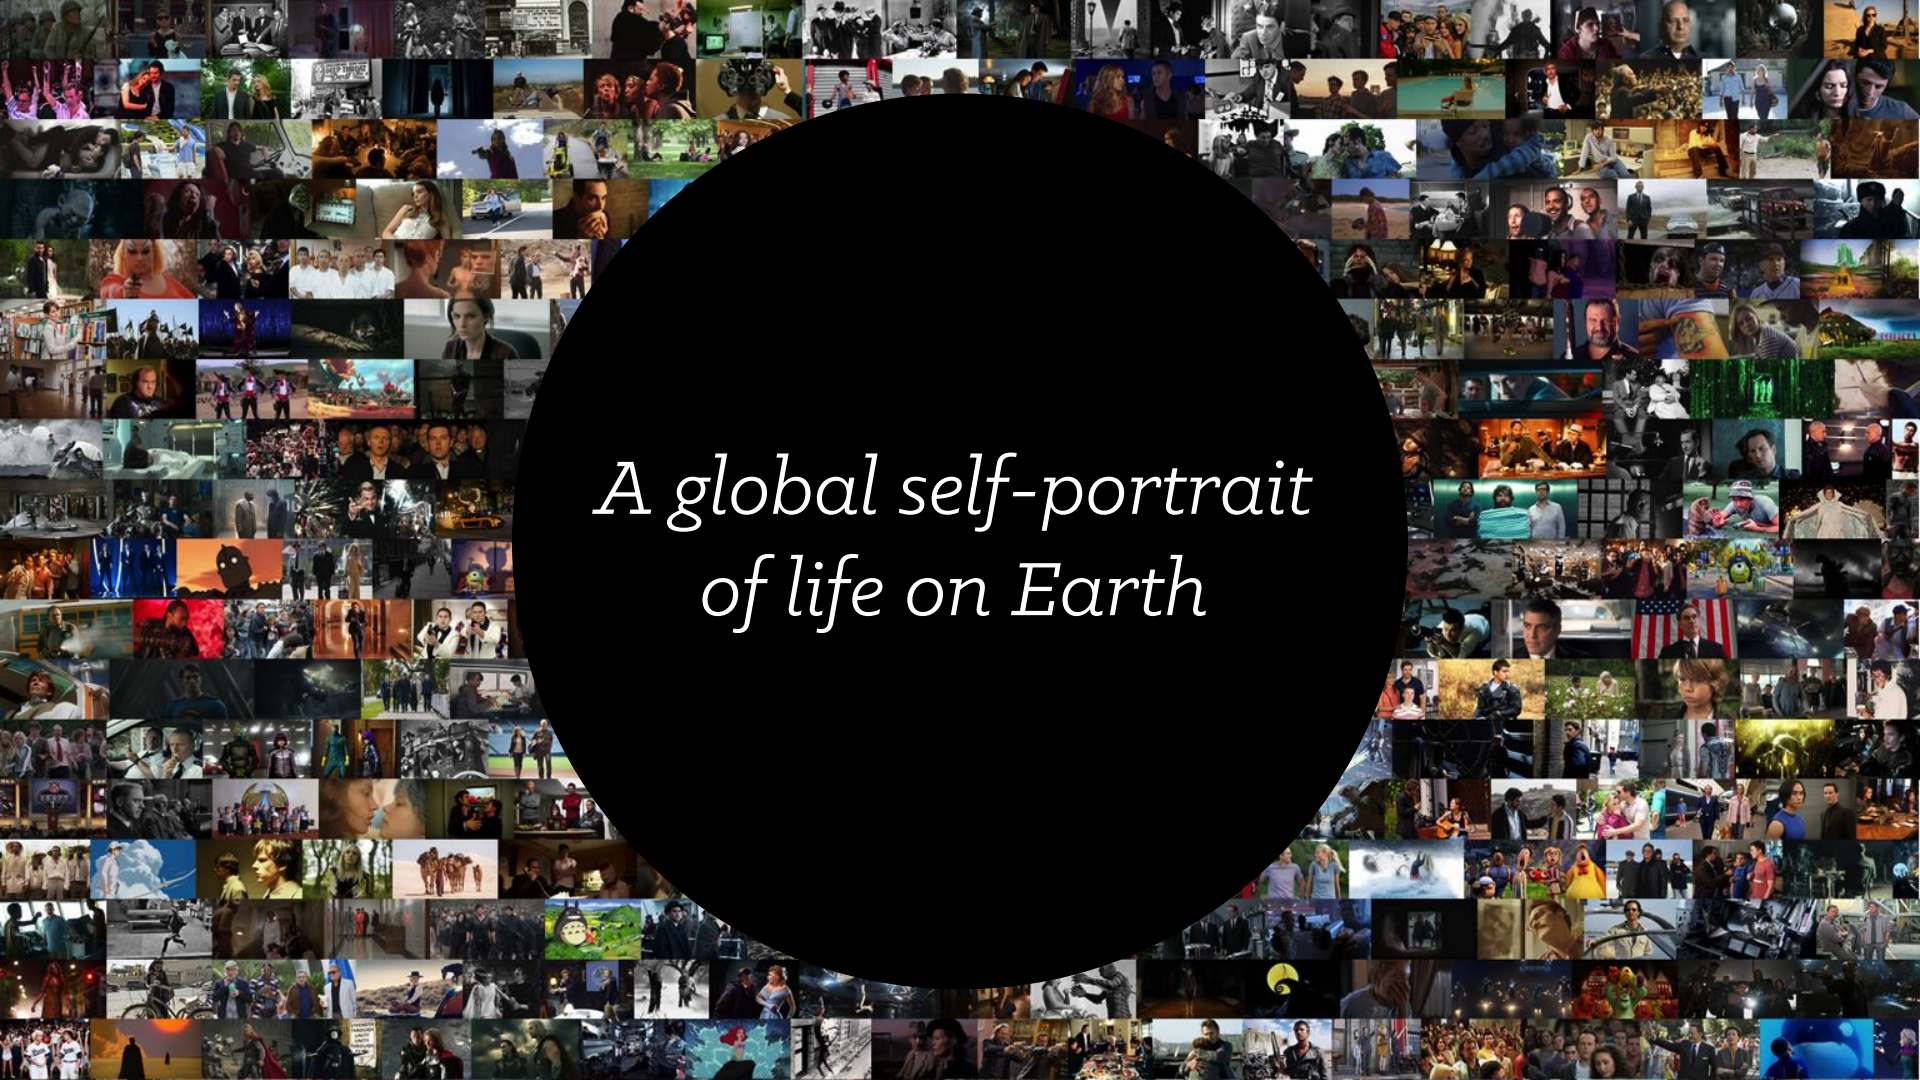

*Landing on the moon in 2018 via a
SpaceX Falcon 9 rocket and the
Astrobotic Lander*

*EarthCapsuleOne will crowdsource
contributions from around the world*

*A global self-portrait
of life on Earth*

Every time you look up at the moon...

TODAY

BRAINSTORM (10 MIN)

Create and share ideas for what should go into the time capsule

BULLSEYE (15 MIN)

Decide what matters the most, together

REFLECTION (5 MIN)

Discuss new perspectives, think big picture

INDIVIDUAL BRAINSTORM

What do you think should go in EarthCapsuleOne?

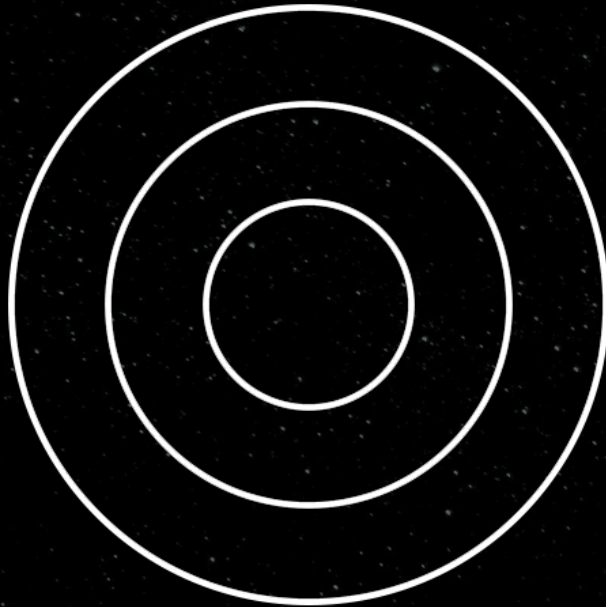

PAIR SHARE

What do you think should go in EarthCapsuleOne?

CLASSROOM DISCUSSION

What do you think should go in EarthCapsuleOne?

BULLSEYE

REFLECTION

Think Deep.

HOMework EXAMPLE

100 words

- *Take a picture of your favorite place and describe it in 100 words.*
- *Describe a problem in the world that you to solve.*
- *Take a picture in your community. Describe it.*

“My favorite place is basketball practice because that is where I can be myself after school with my friends.”

“I love to go to the river on a hot day as it’s always refreshing, and I can always have a fun time with anyone that I take there.”

“I love the smell of my mom’s food because it reminds me of all the good times my family has together.”
